Fossil Creek Wild and Scenic River

Intermediate Objective Map

Protect and enhance the Fossil Creek Wild and Scenic River with its exceptional values in a sustainable way that awes and inspires present and future generations.

Protect the ORVs

Protect and enhance the river's free-flowing condition, water quality, and its outstanding remarkable values.

ORVS ORVS ORVS AQUANICS MATER WILD AND MOUNTICS MATER WILD AND MOUNTICS MATER WILD AND MOUNTICS MATER WILD AND MOUNTICS MATER WILD AND MATER WILD AND

Access/Health and Safety

Provide reasonable vehicular access to WSR corridor and assure safety is addressed at developed sites and roadways. Install a sense of personal responsibly for safety.

- Visitors have the opportunity to learn about personal responsibility for health and safety
- Develop sites

 and roadways are
 designed and
 maintained to
 provide for public
 health and safety.
- Assure emergency personnel have access to Fossil
 Creek and coordinate with search and rescue partners.
- Provide access

 that can be fiscally
 sustained and meet
 the goals of the
 alternative

Public Support

Gain internal and external active support for implementing the CRMP and its long term success.

- Internal buy-in for CRMP at all levels of the agency
- Tribal, federal and state agencies cooperate and support CRMP and its long term success.
- Visitors are informed and active stewards.
- Active support for our stakeholders of the CRMP.
- Stakeholders
 have ownership
 and are
 engaged and
 included in the
 process.

Economics (Internal)

Design the Fossil Creek program to be fiscally sustainable and resilient in the face of uncertain funding trends.

• Volunteers, partners, visitors and permit holders enhance our ability to be resilient and extend our capability to provide public service.
